

WHAT TO EXPECT

During a Soul Level Animal Communication® Session

Thank you for your interest in an animal communication session! Your animal and I are eager to talk with you.

WHAT IS ANIMAL COMMUNICATION?

Animal communication (interspecies communication) is an exchange of intuitive information between humans and animals. This includes all species, such as cats, dogs, birds, fish, horses, and reptiles. The information received may be in pictures, words, emotions, physical sensations, and information you 'just know.'

Everyone has this ability and can develop it with practice. This ability is called telepathy: "communication between minds by some means other than sensory perception" (dictionary.com). If you have ever been thinking of someone and then received a call from them, this is an example of telepathy. If your dog goes to wait for you at the door when you are on your way home from work, this is an example of telepathy.

Because sensory perception is not required, an animal photo is unnecessary to communicate with your pet. Setting an intention to connect with your specific animal is the equivalent of dialing their cell number. Location does not matter, so I can connect with your animal whether they are in a physical body or have crossed over.

Communication can include topics on the physical 3-D level, such as your pet's food preferences. In Soul Level Animal Communication®, the conversation also includes how your animal is helping you grow. This lesson will be different for other household members because you each have a unique relationship with your animal.

WHAT TO EXPECT DURING A SESSION

- * The session will be conducted via Zoom with video off. You may request a recording of the call if you wish for personal use only; do not post it or share with others.
- * You will receive intuitive information about the personality of your animal(s) and how your animal(s) see you and your personality.
- * You can ask your animal one or more questions as time allows.
- * Your animal will be asked to share the Soul Lesson they are teaching you and how you can work with them to learn this lesson.

BEFORE THE SESSION

- * Select a Session: 25 Min: 1 animal, 1 question. 55 Min: 1 or 2 animals, 2-4 questions as time allows.
- * Decide which animal(s) you want to talk with and the question(s) you wish to ask.

DURING THE SESSION

- * Be in a quiet place where you will not be distracted or interrupted.
- * Your animal does not need to be present; allow them to be doing whatever they wish.
- * Please answer honestly when I ask if the intuitive information makes sense to you. If the information does not make sense, I will ask your animal for additional information to clarify the meaning for you. Sometimes, the meaning may not become apparent until after the session.
- * You may want to make notes on the Soul Lesson Guide (available on my website) to refer to later.

AFTER THE SESSION

- * Be attentive to the behavior your animal is using for your lesson and practice the activity they suggested.
- * Contact me if you have questions or would like additional support.
- * Your feedback is invaluable to me! Please take a moment to complete the short survey from Calendly you'll receive the day after our session – it helps me serve you better.
